### Exfoliated Graphite Braided Packing

#### Disclaimer:

The company's products are sold subject to the company's standard terms and conditions of sale products are warranted against defective materials & workmanship. The company makes every effort to ensure all the information, recommendations or the specifications provided by it are accurate and true. However as the company has no control over the conditions of it's use, it does not accept any liability, either directly or indirectly regarding the usage of its product.

#### Product Overview:

**Description:** Reinforced with Inconel wire, this packing combines the flexibility of expanded graphite with the added strength of metallic reinforcement, ensuring durability under extreme conditions.

#### Technical Specifications:

Specification	Test Result
Temperature:	-200 to 650°C (Steam up to 550°C)
Pressure:	Up to 400 bar
pH Range:	0-14

#### Applications:

- High-pressure steam valves in petrochemical industries
- Rotary equipment in high-temperature applications
- Chemical service pumps in pharmaceutical plants

#### Key Benefits:

- Handles extreme pressure without deformation
- Resilient to mechanical stress and vibrations
- Exceptional sealing in critical applications

#### Unique Selling Points:

- Combines resilience and strength with Inconel wire reinforcement
- Reduces downtime and enhances equipment lifespan.
